

NENMATSU CHOUSEI

WHAT is it?

The year-end tax adjustment calculates the difference between your total income tax and the actual amount you have left to pay or will be refunded.

WHY should I do it?

- If you overpaid taxes, you'll get a **refund**.
- If you don't submit your dependents declaration, your income tax for next year will be **REALLY EXPENSIVE**.

*If you underpaid taxes, you will need to pay the difference.

WHEN is the deadline?

November 19th

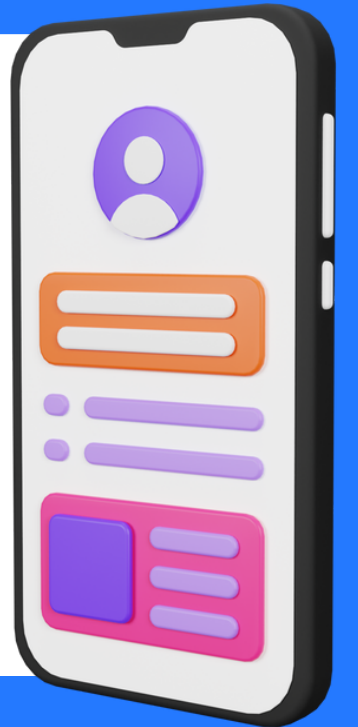

*The deadline is different for those who started working in November. Please, contact us for more information.

HOW TO DO IT?

ONLINE ONLY

You need to log in into the nenmatsu chousei website and do it online.

**You cannot do it by paper.*

GUIDES

How you should declare depends on your situation. Choose your status for **THIS YEAR** and follow the guide below:

If your **only income** **this year** was by Techno Service

**ONLY
TECHNO**

If you have **other income** besides Techno Service

**OTHER
INCOME**

e.g. If you worked at other companies this year

If you will do the tax declaration to the government yourself

**KAKUTEI
SHINKOKU**

 You still need to declare online, otherwise you will get **expensive taxes** next year(¥ 50,000 per month until you declare)
